Use the light and movable panel to organize the space and give yourself some privacy in seconds - even in offices with hot desking.
- ② **HANGING HORIZONTAL**
Hang it as a single element or in a set for efficient sound absorption and the feeling of coziness - especially in high spaces.

- ③ **HANGING VERTICALS**

- ④ **FREE STANDING ROOM DIVIDER**
Easily separate the meeting spaces full of chatter from the areas meant for focus.
- ⑤ **FREE STANDING ROOM DIVIDER**
Use it as the easiest way to separate workstations with height-adjustable desks.

Don't lose any of the working surfaces thanks to the virtually invisible mounting system.
- ② **HANGING VERTICAL**
Connect the panels in a chosen pattern to create an acoustic wall that starts and ends at any height.
- ③ **BEHIND THE DESK**
The most basic way to separate workstations. Choose from many systems to mount it permanently or temporarily.

- ④ **WALL**
Soundproof your conference room, corridor, or office with panels. Use the removable system to reconfigure panels as you wish.
- ⑤ **GLASS**
Use the panels on suction cups to quickly cover the glass walls and reduce the echo.
