The Talks is a comfortable modular sofa that can curl through a room like a snake.

The Talks sofa has three linkable sofa elements, one of which is straight and two curved (inside bend and outside bend). These elements can be fully combined to achieve the desired composition. This way you always arrange the sofa that fits perfectly with the shape of the room.

Talks is the sister of the Turning Talks. The Talks sofa can be upholstered in a wide variety of fabrics. The back, the seat and the shell can be upholstered in various fabrics. The legs can be powdercoated in various colors.
