

- **Practical:** a dimension of 57.5 cm for a maximum readability up to 180m. This large clock is particularly suitable for large areas (open-spaces, warehouses, meeting rooms, dining rooms, ..).
  - **Modern design:** its contemporary look and its white numbers on a black background allows a visual contrast conducive to reading.
  - **Complementary:** clock perfectly coordinated with LED lamps and UNILUX office accessories (coat rack, footrest, ergonomics products).
- Operation: powered by a 1.5 V (AA) battery supplied
  - Dimensions: diameter 57.5 cm
  - Thickness: 7 cm
  - Weight: 3.45 Kg
  - Average consumption: 0,21 Am
  - 2 years warranty
  - Quick wall fixing with 1 eyelet
  - Materials: ABS plastic frame / flat mineral glass lid

# UNILUX'S ADVICES

## 1- Why use a clock?

A clock is a must-have accessory that fits perfectly into any room in your business:

individual office

- open space
- meeting room
- Passing places
- lobby

Setting up a clock in a workspace allows employees to avoid checking the time on the smartphone or tablet time and therefore not be tempted to look at their messages or browse the internet by same occasion. Thus a clock allows to gain in concentration and productivity because the employees are less distracted.

For good readability from a distance, it is important to have:

- good contrast between the background of the dial and the color of the numbers (better contrast with white background / black numbers)
- A good height of the figures (about 3cm minimum) and in Arabic characters preferably

In addition, the choice of a clock can be made according to different needs on the part of the consumer.

1- Ideal for integrating into any type of workspace

**Solution:**  
**Quartz clocks**

2- Perfect for creating a framework conducive to concentration at work

**Solution:**  
**Silent clocks**

3- Automatically adjust the time permanently

**Solution:**  
**Radio-controlled clocks**

## 2- Some definitions

### Quartz system

The quartz pendulum mechanism, based on the piezoelectric phenomenon, is one of the least energy-consuming, with a reliability of one second deviation in 6 years of operation.

### Radio-controlled system

The time is automatically and permanently adjusted by radio waves from the Mainflingen atomic clock (high precision: 1 second difference maximum in 1 million years)

### Step movement

Second-hand movement of the second hand

### Sweep movement

Continuous movement of the second hand
