Elegant lounge chair as an eye-catcher

With se:cove, Sedus makes a clear statement about the evolving workplace, which balances focused working and social interaction. The lounge chair is both a retreat and a meeting place: it offers comfort and calm without closing down the option of connection. People in offices nowadays want options for both focused working and deliberate dialogue, and se:cove offers the perfect balance. Its sculptural form provides both visual and acoustic boundaries, while an inviting design signals openness as well as connection. Either as a private haven for focused thinking or as a comfortable spot for spontaneous conversation – se:cove combines comfort, aesthetics and sustainability in a unique way. As a visual highlight, it embodies not only a resource-efficient approach to product development, but also the mindful office theme.

Application areas

- 1** Work Café
- 2** Quiet zones
- 3** Breakout/communal areas
- 4** Reception areas
- 5** Meetings & conferences
- 6** Top management

se:cove

● se:cove

The se:cove lounge chair combines sculptural design with maximum sitting comfort. Thanks to its unique form it's a retreat opportunity that provides a calm, focused setting whilst at the same time maintaining openness to allow connections. Sustainably manufactured and highly versatile, se:cove integrates seamlessly into a wide range of space concepts.

se:cove

A combination of comfort, design and sustainability

se:cove unites sculptural design, a high level of seating comfort, and a responsible choice of materials. A real eye-catcher, the lounge chair is both a place of retreat and a statement for sustainable thinking – the perfect choice for focused work, creative breaks or longer conversations. While the rear view conveys a sense of dynamism and structure, the front invites you to take a seat with its open and welcoming design.

Advantages

- The generous space allows comfortable sitting and relaxed reclining.
- Thanks to a high proportion of recycled raw materials (up to 68 %), the chair is extremely resource-efficient.
- se:cove offers a high level of comfort and convenience.

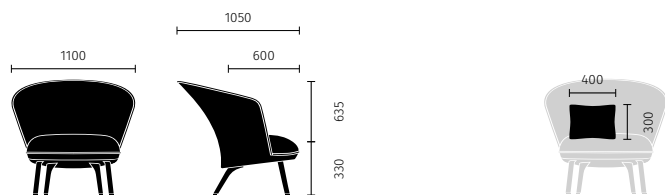

Features

- se:cove meets high standards in terms of design, aesthetics and quality.
- A stand-out detail is the all-round decorative seam with double-stitched seam line: both the inside and outside are made from the same fabric as the upholstery, while the yarn also matches the cover colour.
- The chair comes with reversible glides (plastic and felt). On delivery, plastic glides are fitted.
- se:cove is suitable for a user weight of up to 130 kg.
- The chair has GS certification.
- se:cove has Greenguard certification.
- The chair has been tested by TÜV for harmful substances.
- There is an Environmental Product Declaration (EPD) for se:cove.
- The guarantee period is 5 years.
- The derived timber products are FSC-certified.

Options/accessories

- Two base versions are available: four-leg wooden base and aluminium base.
- The three upholstery covers can be configured independently of each other: seat upholstery, inner backrest upholstery and outer backrest upholstery.
- Choose from the Sedus fabric collections for all seat and backrest upholstery. Leather and imitation leather are only available for outer backrest upholstery. Note: colour combinations are possible within a fabric collection. Leather and imitation leather covers can be combined with each other and with all fabric collections.
- A separate, fully covered decorative cushion with double-stitched, all around seam line is available as an option. The filling consists of hollow fibre balls made of 100% recycled polyester.

sedustainable

se:cove is sustainable.

Social responsibility

- se:cove creates an inviting atmosphere.
- se:cove functions as a retreat to ensure mental well-being.

Economy

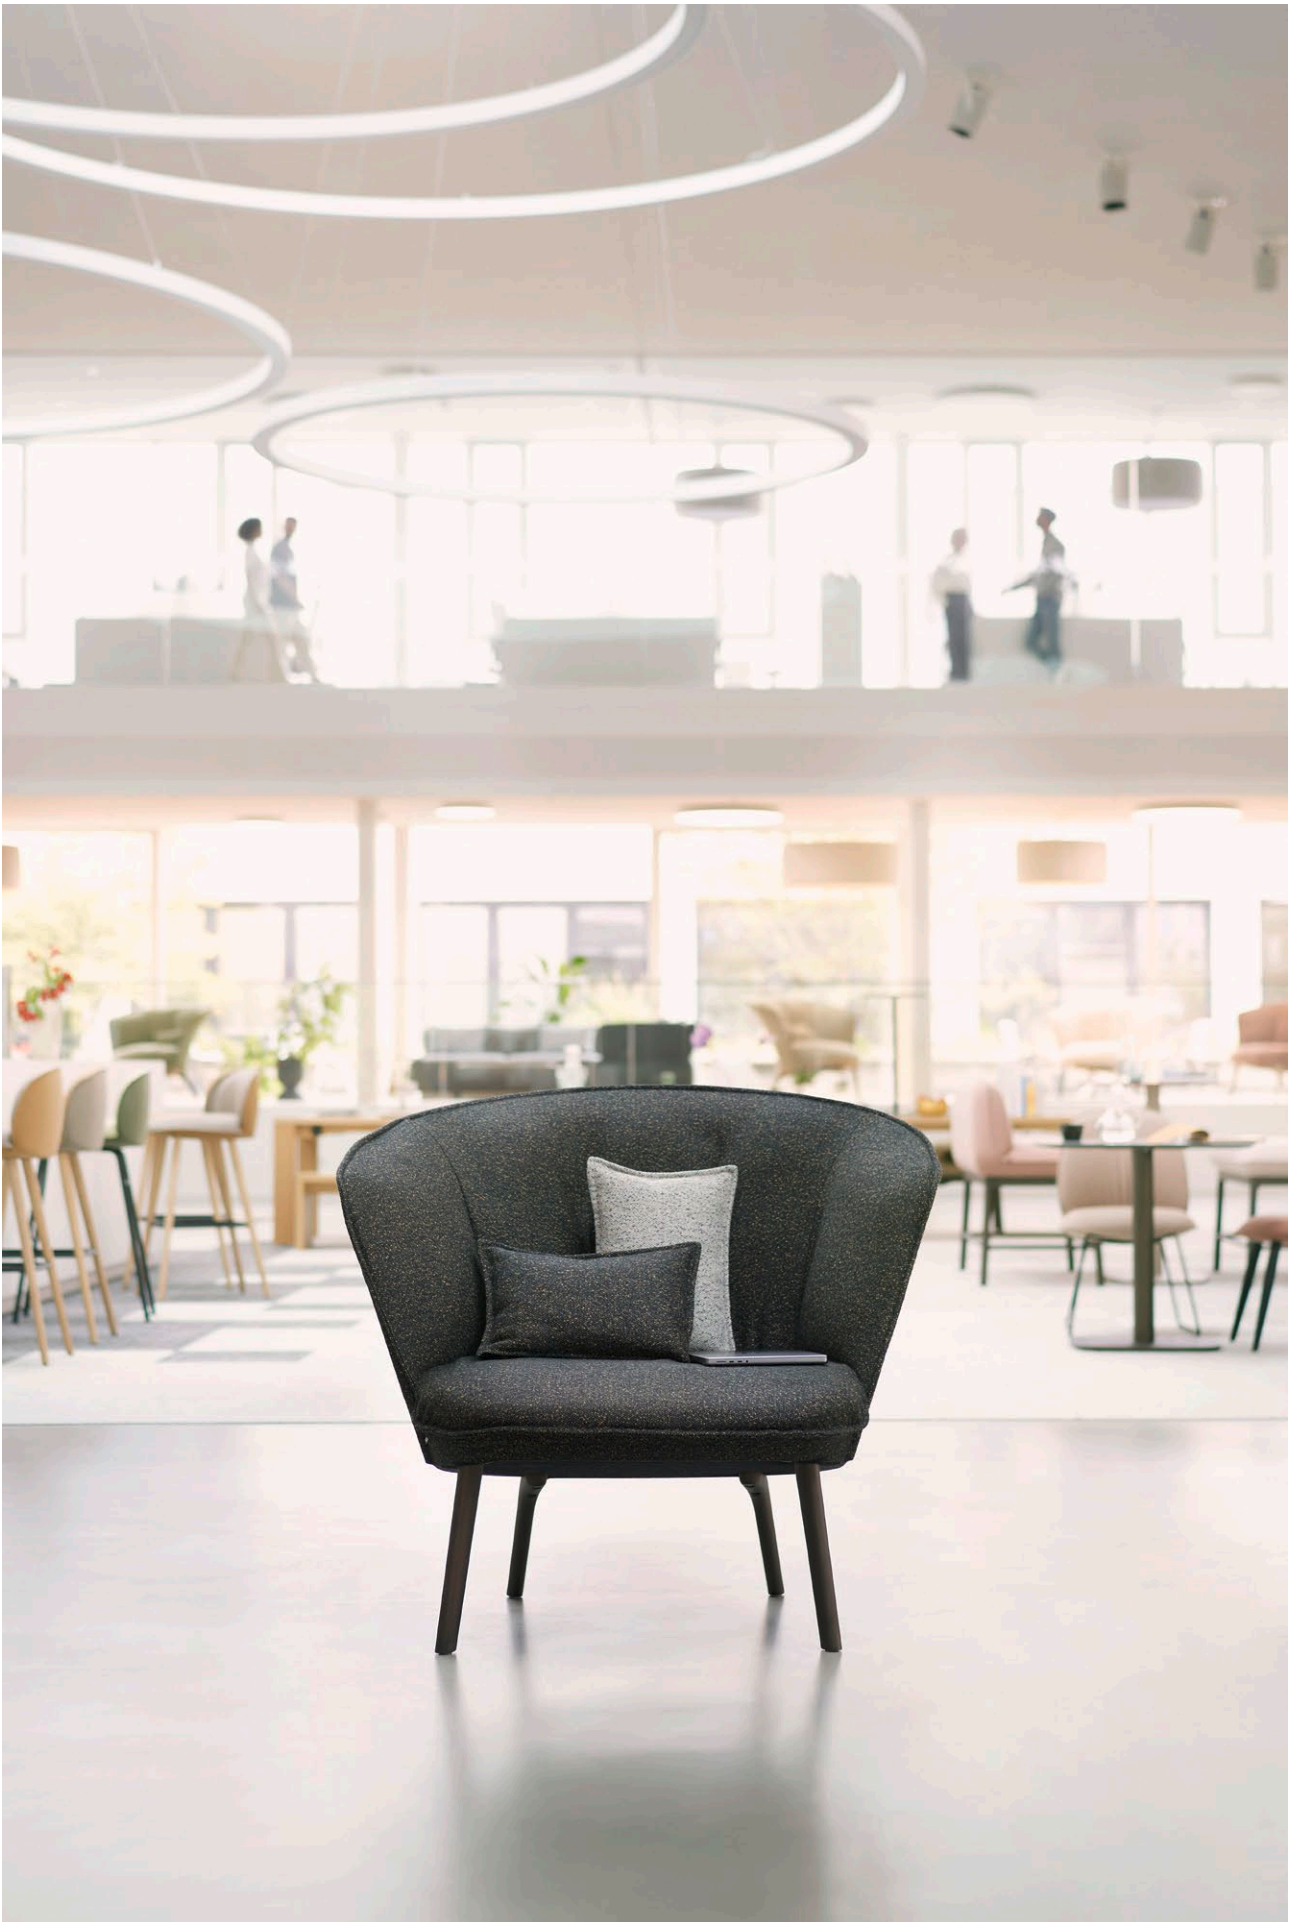

- se:cove offers exceptional build quality.
- All of se:cove components are removable and replaceable.

Ecology

- The filling consists of hollow fibre balls made of 100% recycled polyester (post consumer).
- The aluminium legs are made from 90% recycled aluminium.
- The seat covering (substructure) is made from 59% recycled polyester.
- The steel parts are made from 94% recycled material.

Sedus pursues a holistic approach to sustainability based on the three pillars of social, ecology and economy. The goal of becoming CO₂-neutral at its administrative and production sites by 2025 is actively supported through the development of innovative products and efficient production methods. Sedus is also committed to social projects, education and health through two foundations to which the company is majority-owned, thus making a positive contribution to society. With the "Sedustainable" initiative, Sedus designs holistic workplace solutions that both protect the planet and improve the quality of life of its employees. We really care.

We really care

Designed, engineered, crafted **in Germany. Since 1871.**
